

Name: Krishna Chetan Kumar Bardolia
Address: 25/185, Laxmi Niwas, Chowrasi, Surat
Age: 29 years

Story: I am associated with SEWA Mahila Housing Trust (MHT). We are three members in our family including myself, my husband and my small daughter. Earlier I used to work as an apprentice in a bank. It was a contractual job of 1 year. After the contract got over, I started looking for work. I knew somebody who used to work as an accountant in SEWA and whose husband does zari work. With her help, I got into SEWA.

Covid struck us in March 2019. Even before that my husband's zari work was not doing well due to a slump in the market.

My family was wholly dependent on my salary. We received a body blow when I tested positive for the coronavirus. We were left thinking what we will do in future. Then SEWA asked me to mail my health report and I got some hope that it may offer me some financial help. When finally I received some money credited to my account through SEWA, we got a new lease of life. For this, I am very thankful to SEWA and particularly VimoSewa. I had health insurance against Coronavirus which saved me and my family during such difficult times.

Thanking you
