Age: 40

Story: Shahinbibi is associated with VimoSewa since 2018 and had taken insurance from VimoSewa for herself and her husband. The couple has two kids--one boy and one girl. Shahinben is not well to do. She works as a maid in a bungalow and her husband used to do odd jobs. Her son is 17 years old and does some job, whereas her daughter is 14 years old.

Agewan Husnaben had done a meeting in Sonal ni Chali. That time she had met Shahinben and enrolled her in the insurance scheme.

Later Shahinben's husband got sick. He developed high BP and consequently had a heart attack and died. Shahinben had never imagined that such a situation will come. Her husband was mere 47 years of age. They had taken life insurance and so the family got 35000 out of it upon his death.

Vanitaben and Husnaben had gone to meet Shahinben when her husband had passed away. Shahinben was under lot of stress but the only good thing was that the family received a good amount from the insurance policy. Had they not taken any insurance, they wouldn't have got this additional money.

Shahinben says further "Everyone should take insurance coverage".
