

Name: Chaitali Demi Mali

Address: Variyari Bazaar, Chawrasi, Surat

Age : 32 years

Story - I am associated with SEWA Mahila Housing Trust for the past 3 years. We are three people in the family--myself, my husband and my small daughter. Initially, I used to be at home taking care of my daughter. Once she grew up, I started to work with SEWA. As of now, I do field work while my husband is employed with a diamond factory.

My husband's factory had closed down during the corona pandemic. With that, we had lost one of our income sources. We were dependent only on my income to run the house. But once I got infected with the corona virus, all hell broke loose. On one hand we required money for my treatment and on the other hand we had to run the house.

In those hard times, the health insurance I had taken from VimoSewa served as a boon to our family. I am very thankful to VimoSewa for helping me out in this difficult phase of our lives. With the sum received from them, we could offload the financial burden we were facing. I just wonder how we would have managed had we not taken health insurance from VimoSewa. I request everybody to take health insurance.

Thanking you.
